I am a front-end designer with more than 1 year of experience in the area of design & development and implementing code, refactor code and manage code quality.

## Work Experience:

### Fronrt-End Designer

May 2022 - Present

Absne Pvt Ltd.

- Developed functionality in the **healthcare admin dashboard** called **Nutrition**. In this dashboard we do manage user's data through **search & filter** functionality, **chat support** functionally, **API integrations** and **user authentication** which include register, login and reset system.
- Developed an **education website** called **Vikram University Library**. It is a **student & teacher management** website using of front-end technologies like **HTML, CSS and Bootstrap**.
- Re-designed and develop an **Online Education Platform** called **Engo Talk** with the help of **HTML, CSS, Bootstrap** and **Material UI**, motive of this platform is to communicate through **live chat support** for premium students through the **payment gateway**.
- Designed a **blog website** called **The Boss Story** with the use of the **angular framework**. On this website users can post their **blog posts** and **admin** can **approved** and then displayed on website. User also **featured** there post after paying certain amount.
